

Title of the subject:		Serbian-Slavic lexis		
Subject code	Subject status	Semester	Number of ECTS credits	Number of classes
	optional	V or VI	3	2+0

Study programme for which it is organised:

the Serbian language and literature

Connection to other subjects: passed subjects Proto-Slavic language 1 and 2, Historical phonetics, Historical morphology

The subject's objectives: To introduce students to lexical system of Serbian-Slavic language in terms of word formation and semantics. To acquire basic terms of semantical area of sacral. The students will, based on grammatical material from middle age and according to word formation criteria, analyze lexical system of Serbian-Slavic language, which includes analysis of word formation basis, productive suffixes and prefixes, productive word formation models, separating word formation and semantically dominant lexical core of chosen lexis. That way, the students will be able to become familiar with always changing word formation processes used to build new words, which over the centuries always shape man's manner of thinking in the same manner.

Name and surname of a professor and teaching assistant: Zorica Nikitović, PhD

Methods of teaching and acquiring lessons: monologue, dialogue, work on text.
