

Title of the subject:		Lexicology of the Serbian language		
Subject code	Subject status	Semester	Number of ECTS credits	Number of classes
12SLSJ	compulsory	V	4	2 + 2
Study programme for which it is organised: the Serbian language and literature				
Connection to other subjects: -				
The subject's objectives: To introduce students to the subject, main characteristics of lexicology as linguistic discipline, lexemes as the units of lexicology, and organization of lexical system of the Serbian language.				
Outcomes (acquired knowledge): The students will be able to define, describe and apply knowledge regarding given lexicological characteristics of modern Serbian language. They will be able to interpret and analyze organization of lexical system and to explain types of syntagmatic and paradigmatic relations among units of lexicon of Serbian, to analyze components of lexical meaning, and to explain and apply models of their interpretation, and finally they will be able to analyze lexemes as lexicological units in all kinds of texts.				
Name and surname of a professor and teaching assistant: Dijana Crnjak, PhD, associate professor; Sonja Lero, TA				
Methods of teaching and acquiring lessons: Lectures, exercises, seminar paper. Colloquium and exams.				
Content of the subject:				
Preparatory week	Preparation and semester enrollment.			
I week	Term, definitions, history of lexicology as science discipline.			
II week	Place of lexicology among other linguistic disciplines.			
III week	Lexicology as interdisciplinary science.			
IV week	Types of lexicology – individual disciplines within lexicology.			
V week	Lexicology's objective.			
VI week	Term and definition of lexicon and lexeme.			
VII week	Organization of lexical system: polysemy – systematic semantic transformations in lexicon.			
VIII week	Lexical paradigmatic relations. Homonymy.			
IX week	Synonymy.			
X week	Antonymy.			
XI week	Lexical syntagmatic relations: defined connections of word of denotative and connotative type. Lexeme – basic unit of lexical system.			
XII week	Relation between lexeme and word, criteria for classification of lexemes. Lexeme as a sign.			
XIII week	Lexical meaning (components of lexical meaning, models of lexical meaning: theory of semantical features, theory of semantical prototypes).			
XIV week				
XV week				
Number of classes per subject:				
Weekly: 2 classes of lectures + 2 classes of exercises			In the semester: 30 classes of lectures + 30 classes of exercises	
Students are obliged to attend lectures and exercises.
